MABLE USER MANUAL – August, 2010

Setting up an account and changing your password

If you will be doing data entry in MABLE as a site administrator, the state administrator will set up your account, assigning you a user name and giving you rights to specific sites. MABLE will generate a password for you to use for logging in the first time. The assigned password is not user friendly; you should copy and paste it rather than trying to type it in the first time you log in. You will want to change that password as soon as you log in. Choose Change Password from the Help menu.

The screenshot shows the MABLE user interface. At the top, there is a navigation bar with tabs: Summary, Student, Administration, Reports, Help, and Logout. The 'Help' tab is selected, and a dropdown menu is open, showing 'Useful Forms and General Information' and 'Change Password'. Below the navigation bar, there is a 'Sites:' dropdown menu with 'Anaconda' selected. Below that, there is a 'State Director Messages:' section. A mouse cursor is pointing at the 'Change Password' link in the Help menu. Below the main interface, there is a detailed view of the 'Change Your Password' form. The form has a green background and contains the following fields: 'Old Password:', 'New Password:', and 'Confirm New Password:'. Each field has a text input box. Below the fields is a blue button labeled 'Change Password'. At the bottom of the form, there is a note: 'The new password must have a minimum of 8 characters using a combination of uppercase and lowercase letters, and numbers'.

Paste the password you received into the Old Password field and then type in your new password twice. Click Change Password.

Because you are logging into a state network, you will be forced to change your password every 60 days. On login, you will be directed to the above screen where you will make the change. Once the password has been changed successfully, you will be allowed to Continue into MABLE.

You can change your password more often if you like by returning to Help>Change Password. If you suspect your password has been compromised, you should change it immediately.

*****Remember that MABLE contains confidential student information, and you are required to treat it responsibly. For example: don't write your password on a piece of paper and 'hide' it somewhere on your desk. When you step away from your computer, you should lock the screen so no one can access it in your absence.**

MABLE USER MANUAL – August, 2010

Setting up Instructor Accounts

The site administrators will set up accounts for instructors at their sites. The method for assigning and changing passwords is the same for all accounts. Choose Administration>Update User Information to edit or create an instructor account. Use the Filter to search for an existing user or click Add New User to create a new account.

Sites:

Filter By Name:

Name	Assign Roles And Sites	Update User Info	Send New Password
carolsiteadmin	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>
cindie	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>
cindiesite	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>
CP8056	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>
CP8161	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>
LynnetteGeske	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>
SiteAdmin	<input type="button" value="Assign"/>	<input type="button" value="Update"/>	<input type="button" value="Send Password"/>

Login Name:

E-mail:

☐ Account Locked

- Enter the user name and email address for the instructor and Save.
- This creates an account for the instructor but does not give him/her rights to your site.
- Once the account is created, you will need to assign the instructor to the appropriate site(s).
- If you have a main site and multiple satellites, you might prefer that the instructors at each satellite see only student records from that site.
- For instructors who travel to multiple sites, you would want to assign rights to all those satellites.
- Be sure to scroll to the bottom of the page and click Save once you have assigned the instructor to the appropriate sites.

MABLE USER MANUAL – August, 2010

Class Maintenance

Attendance is collected by Class, so you need to create a record for each class offered at your site. In addition to the classes you set up, MABLE creates default classes for Assessment, Goal-setting and Intake. Programs that have been set up for distance learning will also have all of the distance learning classes in their lists. Each class has a Code, Title, Instructor, Start Date, and if applicable an End Date. To edit an existing class or create a new class choose Administration>Class Maintenance.

Sites:

Search By:

Code: Title:

Code	Title	Instructor	Start Date	End Date		
PEPTALK	Personalized Employment Plan		1/2/2008			
CEM B ESOL	Beginning ESOL	Tom Scanlin	9/13/2007	5/29/2008	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
CEM InESOL	Intermed ESOL	Karen Savage	9/13/2007	5/29/2008	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
GED02	CEM GED	Jill Krauss	8/14/2007	7/30/2008	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
ASSESS	Assessment		7/1/2007			
GOALS	Goal-setting/Counseling		7/1/2007			
INTAKE	Intake		7/1/2007			
<input type="button" value="Add Class"/>						

- To Edit or Delete a class, choose the appropriate button.
 - You will not be allowed to delete a class if there are attendance hours in that class.
- Click on Add Class
 - Before creating a new class, you can use the Search feature to determine whether the class already exists. This is particularly helpful if you have many pages of classes.

MABLE USER MANUAL – August, 2010

Add a Class (Continued)

Code: **Title:**

Start Date : **End Date:**

Instructor:

☐ Carol Stoltz ☐ Mary Setera ☐ Nancy Reynolds ☐ Shelley Freese
☐ Jen Kocher ☐ Melinda Lynnes ☐ Shella Zelenz

Comments:

- Code is required
- Title is optional, but is generally a more thorough description of the class
- Choose the start date for the class

***New for this year: Starting in the 2010-2011 program year, we would like to gather data on student attendance at the instructor level. MABLE already collects data at the class level, so the remaining step would be to assign each class to a specific teacher. Select the name of the instructor who will be teaching the class. If you currently have more than one instructor assigned to a class, you will need to create a new class for each instructor. For example: If you have had instructors Smith, Jones and Allen teaching Math, you will need to create 3 Math classes and assign one instructor to each class. You can name each class uniquely or just call them all Math. Whenever MABLE displays the class names in a list, the instructor name assigned to each class is included for your convenience. ***

- One instructor must be assigned to each class.
 - The class lists on the attendance pages will now display the class name and the name of the instructor assigned to that class.
- The Comment field is optional and was included for your benefit, in case you want to include additional notes about a class. Include any comments that will be useful for you.
- Click Save

MABLE USER MANUAL – August, 2010

Personnel Maintenance

It is necessary to create records for all personnel at the site. This information is reported on NRS Table 7.

As with entering students and creating users, adding personnel records is a two-step process. First you create a record for the person, and then you assign the person a role and location. Each assignment will have a start date. The end date will be blank until the person leaves that assignment.

Choose Administration>Personnel Maintenance

Sites: ☒ Show only personnel for the selected site

Search: (To search by last name put % in front of the name. ex: %Smith)

Name	Licensed Educator	Start Date	End Date			
Anita Shoppe	<input type="checkbox"/>	7/1/2007	6/30/2008	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>	<input type="button" value="Assignments"/>
Jerry Guay	<input checked="" type="checkbox"/>	7/1/2008		<input type="button" value="Edit"/>	<input type="button" value="Delete"/>	<input type="button" value="Assignments"/>

- To edit an existing person's information, click the Edit button.
 - To add or change the person's assignments, click the Assignments button
 - To add a new person, click New Personnel.
- ***Note: you should first do a search to determine if there is already a record for that person in the system.

Sites: ☒ Show only personnel for the selected site

Search: (To search by last name put % in front of the name. ex: %Smith)

Name	Licensed Educator	Start Date	End Date			
<input type="text"/>	<input type="checkbox"/>	<input type="text" value="7/1/2009"/>	<input type="text"/>	<input type="button" value="Save"/>	<input type="button" value="Cancel"/>	<input type="button" value="Delete"/>
Anita Shoppe	<input type="checkbox"/>	7/1/2007	6/30/2008	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>	<input type="button" value="Assignments"/>
Jerry Guay	<input checked="" type="checkbox"/>	7/1/2008		<input type="button" value="Edit"/>	<input type="button" value="Delete"/>	<input type="button" value="Assignments"/>

- The new record is highlighted in yellow.
- Enter the name
- Check whether the person is a licensed educator
- The start date defaults to the first day of the current program year, but you can enter any date
- Click Save

Sites: ☐ Show only personnel for the selected site

Search: (To search by last name put % in front of the name. ex: %Smith)

Name	Licensed Educator	Start Date	End Date			
New Teacher	<input checked="" type="checkbox"/>	9/15/2009		<input type="button" value="Edit"/>	<input type="button" value="Delete"/>	<input type="button" value="Assignments"/>

Site	Employment Status	Role	Start Date	End Date
<input type="text" value="Hardin"/>	<input type="text"/>	<input type="text"/>	<input type="text" value="7/1/2009"/>	<input type="text"/>

- On Save, a new Assignment screen will open for the new person
- The new fields are highlighted in yellow
- Choose a site
- Choose an employment status

MABLE USER MANUAL – August, 2010

- Choose a role
- Enter a start date for this assignment – the date must be the same or later than the person's start date already entered in the last step
- Click Save

MABLE USER MANUAL – August, 2010

The Site Summary page

This is the MABLE Home page. The information shown here is designed to give you an at-a-glance look at students who might need attention.

You will be able to choose which of your sites to view from the dropdown list. In most cases, there is only one site.

- Any current messages from the state director are displayed first. Check here for news about updates and changes in MABLE.
- The first group of student names shows you students with no attendance within the last 90 days. Those students should be given a separation date. You can filter the list for a different number of days if you wish. To separate a student on this list, click on the Summary button; this takes you directly to the student record.

Students with no activity in the last **days:** [Refresh](#)

[Click for Excel spreadsheet](#) of last activity date for all students at the site.

By clicking on the above link, you can create a spreadsheet report that shows the last activity date for all active students at your site.

- The middle section displays students who are eligible to test. This includes students with more than 60 hours and no post test, those in the last 30 days of their instructional year and those whose instructional year has changed and need to be pretested.

Grid below lists students eligible for testing.: [Click for Excel spreadsheet](#) of all students at the site.

The spreadsheet link creates a list of all active students at the site, along with any testing status message, instructional hours and last assessment date.

- The final section shows students who have not selected a goal for this program year. It is not required for a student to select a goal; all students have a goal of educational gains. However, you might want to review the list to make sure that you haven't missed entering a goal for any student who is working toward one of the core goals. The Dept of Education is encouraging more thorough goal-setting with a plan to have all students with two core goals where appropriate.

MABLE USER MANUAL – August, 2010

Creating a student record

- Each student is entered into the MABLE database just once, but he can be enrolled at multiple sites.
- Before creating a new student record, you must determine if the student is already in the system.
- Choose Student Locator from the Student menu, and do a search by name, date of birth or SSN. If you are unsure of the spelling, check the Search for Similar Sounding Names box and the program will return various spellings. (e.g. Gardner, Gardiner, Gardener).

Summary	Student	Administration	Reports	Help	Logout
---------	---------	----------------	---------	------	--------

Last Name:

First Name:

☐ Search for Similar Sounding Names

Date of Birth:

SSN: (Must be complete SSN, if entered)

☐ Search Only My Sites

If the student record you are searching for is displayed: click Enroll next to the name to create an enrollment record for the student at your site. Once the enrollment record is created, you will have access to the student's entire record.

Search Results:

MABLE USER MANUAL – August, 2010

First Name: MI: ☐ Last Name Maiden/Other:

Address: City: State: Zip:

SSN: ☐ SSN Waiver DOB: Gender: ☐ Lives in Rural Area

Phone: Location: Phone: Location:

E-mail: ☐ Student does NOT want any FERPA data disclosed

Is the student Hispanic/Latino? (Choose only 1)

☐ No, not Hispanic/Latino

☐ Yes, Hispanic/Latino (A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.)

The above question is about ethnicity, not race. No matter what was selected above, please continue to answer the following by marking one or more boxes to indicate what the student considers his/her race to be.

What is the student's race? (Choose 1 or more)

☐ American Indian or Alaskan Native (A person having origins in any of the original peoples of North and South America, including Central America, and who maintains tribal affiliation or community attachment.)

☐ Asian (A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, Vietnam and Laos.)

☐ Black or African American (A person having origins in any of the black racial groups of Africa.)

☐ Native Hawaiian or Other Pacific Islander (A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.)

☐ White (A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.)

- Enter the student's name, address, birth date, gender and other information on the **Core Data** page.
- Yellow highlighted fields are required.
- The SSN waiver checkbox is important. If a student has chosen one of the core goals, we need a signed waiver before we can do data matching to determine goal completion.
- Starting July 1, 2010, all students must answer the two-part race/ethnicity question.

Note: You must manually select the correct race/ethnicity for continuing students. MABLE cannot convert prior year data to the new standard.

- Click Save.
- This will create a record for the student, but will not enroll him in your site.

This page is useful if you would like to enter your attendance by Instructor. If you assign the student to classes on this page, and assign each of your classes to an instructor, you can use the Attendance by Instructor option described below.

The **Summary** page is where you can enter and view the student's attendance record, assessment history and goals. This is the only place for entering assessment or goals. Depending on how you do attendance at your site, you can enter student attendance from this page, or use one of the options listed under the Student menu. See instructions below for details on entering student data.

MABLE USER MANUAL – August, 2010

Entering Goals

Click the Add Goal button at the bottom of the student's **Summary** page.

Program Year: 2010 Goal: (* indicates a core goal) Goal Complete? ☐

Save Cancel

- Choose the program year
- Pick a goal from the dropdown list
- Save the record
- Current student goals will be displayed at the top of the student record right under Primary Area of Instruction.

If the chosen goal is one of the core goals, MABLE will mark the goal as complete at the end of the program year by using Data Match. For secondary goals, you will need to click on the Edit button next to the goal on the Summary page. That will take you back to this page where you can select the goal and mark it complete. There are no reports generated for secondary goal completion.

***If a student has selected a core goal, he/she must have signed a waiver in order for the OPI to do data matching. Indicate whether the waiver has been signed on the **Core Data** page.

MABLE USER MANUAL – August, 2010

Entering Assessment

Students should be assessed within 12 hours of enrolling in a program. Assessment data must be entered into MABLE within 30 days of the occurrence.

Click the Add Assessment button on the student's **Summary** page.

SaveDeleteReturn to Summary

Sites: AnacondaAssessment Date: 06/30/2010

Assessment Type:Test Administered:

Area Tested:Difficulty:Score:

Note: You will not see any change to the PAI until you return to the Student Summary page.

Date	Test	Area - Difficulty	EFL (Score)	Test Expires	Select Test
01/12/2010	TABE 9 Survey (Pre-Test)	Reading - A	ASE High (617)	01/10/2011	Select Test

01/11/2010	Locator (Pre-Test)	Reading - A	N/A	01/10/2011	Select Test
01/11/2010	Locator (Pre-Test)	Math - M	N/A	01/10/2011	Select Test
01/11/2010	Locator (Pre-Test)	Language - E	N/A	01/10/2011	Select Test

- Choose your site
- Choose the test date
- Select either Pre-Test or Post-Test
- Select the test administered: BEST Plus, Locator TABE 9 or TABE 10
- Select Area tested – for TABE only
- Select Difficulty – note, TABE test difficulty must be the same or one level higher than the Locator level
- Enter the Score – Locators have no scores
- Click Save
- You will get a message confirming the assessment was saved, or a message explaining why the assessment didn't meet validation criteria.
 - In some cases you will be able to enter an explanation for not meeting the validation criteria and then save the test.
 - In other cases, you will not be able to save the test score as entered.
 - Review the policy and make sure your data entry was correct.
- You can enter another assessment, or return to the student's Summary page

MABLE USER MANUAL – August, 2010

Entering Attendance

MABLE attendance entry screens were designed to accommodate the various methods that sites use to collect attendance. MABLE will not allow entry of attendance dates more than 30 days old, so you must keep your data entry current.

Individual Student attendance entry

If you collect attendance by individual student, you may want to enter each student's attendance from the individual student summary page.

Click Add Attendance

The screenshot shows a web form with a light green background. At the top are three buttons: 'Save', 'Delete', and 'Return to Summary'. Below them is a blue instruction text: 'You must select an attendance date in order to see available classes/student(s) at your site.' The form contains several input fields: 'Sites:' with a dropdown menu showing 'Anaconda', 'Attendance Date:' with a text box containing '08/02/2010', 'Class:' with a dropdown menu showing '101 - Evening ind. class instr. - Ed McLaughlin', and 'Hours:' with a text box containing '3.5'. At the bottom, under the heading 'Students:', there is a list with a checked checkbox next to 'Harris, Gary'.

- Select a site
- Select a date
- Select a class
- Once you have made those selections, the student's name should appear in the Students list. MABLE confirms that he was enrolled in the selected site on the selected date and that the class was a valid class on that date.
- Enter his hours of attendance and Save
- You can enter another attendance record or Return to the student's Summary page

Group Attendance Entry

If you collect attendance by class or by day, you might prefer to enter attendance using one of the choices from the Student menu. This can be a time-saver over entering attendance individually by student.

The screenshot shows a navigation menu with three tabs: 'Summary', 'Student', and 'Administration'. The 'Student' tab is selected, and a dropdown menu is open showing four options: 'Student Locator', 'Attendance by Class-Same Hours', 'Attendance By Instructor', and 'Attendance by Class-Different hours'. In the background, parts of other form fields are visible, including 'Sites: Heler', 'Attendance', and a date field.

MABLE USER MANUAL – August, 2010

Attendance by Class – Same Hours

If you have a class that many students attend for the same period of time, you can enter all their attendance at once.

- Select your site name and a date
 - The names of all students who were enrolled at that site on that date will populate the page in alphabetical order.
- Select the class name – notice that the instructor name is included for your convenience.
- Enter the number of hours for the class
- Check the box in front of each student who was in attendance on that day.
- Click Save
- If this is a duplicate class or one or more students, all records except the duplicates will be saved. The duplicates will be marked with ### so you can check your records for those names.

MABLE USER MANUAL – August, 2010

Attendance by Instructor

This method is useful for large sites. The primary purpose is to filter the list of active students to just those students taking a particular class. Otherwise, the screen would contain hundreds of names and the task of data entry would be more tedious. If Instructors are entering their own attendance, this makes the task quicker and easier.

Before choosing this option:

1. In order to use this option, you must have assigned instructors to each of your classes, and assigned classes to each of your students.
 - Choose Administration>Class Maintenance.
 - Click the Edit button next to a class.
 - Check the box in front of the Instructor who teaches this class (see explanation in Class Maintenance section)
 - Click Save
2. For each student, you must go to the **Class** page and select all the classes he will attend. Classes do not have to be listed in any particular order on this page.

To enter attendance:

- choose Student>Attendance by Instructor
- Choose a site name
- Choose an instructor name
- Choose a date
- The class list will populate with all classes to which that instructor has been assigned
- Choose a class
- The Students: list will populate with all students assigned to that class
- Enter the number of hours of class
- Check the box in front of each student name who was in attendance on the given day
- Click Save

The screenshot shows a web form titled "Attendance by Instructor" with a green background. At the top left is a blue "Save" button. Below it is a blue message: "You must select an attendance date in order to see available classes/student(s) at your site." The form contains several input fields: "Sites:" with a dropdown menu showing "Billings"; "Attendance Date:" with a text box showing "08/10/2010"; "Instructor:" with a dropdown menu showing "Norene Peterson"; and "Class:" with a dropdown menu showing "LA2-1 - Language Arts - Norene Peterson". To the right of the "Class:" dropdown is an "Hours:" text box. Below these fields is a blue message: "If this instructor does not have students enrolled for a selected class the student list will be empty." At the bottom, under the heading "Students:", there are two checkboxes: one for "Alverson, James" and one for "Baysinger, Jeffrey", both of which are currently unchecked.

- MABLE will not allow you to save duplicate attendance records for a student. If a student you have selected already has attendance in that class on that day, that student's name will be marked with #### and not saved. The rest of the selected student records will be saved.

Attendance by Class – Different Hours

MABLE USER MANUAL – August, 2010

This method is useful if students come and go throughout the day, signing in and out on a class sheet. Each student who attended that day can have a different number of hours, but you can still enter all the attendance at once.

Sites:

Attendance Date:

Class:

Hours:

Attendance Entered This Session:

8/20/2010 - Martin, Brent - 1.25 hours in 101 - Evening ind. class instr. - Ed McLaughlin
8/20/2010 - Emerick, Wesley - 4.5 hours in 101 - Evening ind. class instr. - Ed McLaughlin
8/20/2010 - Armstrong, Melanie - 3 hours in 101 - Evening ind. class instr. - Ed McLaughlin

- Choose your site name
- Choose the attendance date
- Choose a class from the Class dropdown
- Choose the name of a student from the list of active students at your site (if you start typing the last name, the name will auto-fill)
- Enter the number of hours that student attended that class on that date
- Click Save
- The record you just saved will be displayed in the box at the bottom. This helps you keep track of what you have done so far in this session, in case of interruption.
 - You cannot print this list from this page.
 - You can copy the list to a clipboard and paste it into another document if you like.
 - Once you leave this screen, this list will not save.

MABLE USER MANUAL – August, 2010

Separating Students

When a student is ready to leave the program, edit his enrollment record for your site to include his separation date and the reason for separating, if you know it. Once you separate a student, you will still be able to view his record until October of the following program year.

Students who have had no attendance for 90 days should be given a separation date. The separation date must be after the last date of attendance, but not more than 90 days after. MABLE allows you to enter a separation date that is more than 30 days old.

Students should NOT be given separation dates at the end of the program year unless they have notified you that they will not be returning, or they have had 90 days with no attendance and no further attendance is scheduled.

If a student is separated from your program and then returns to your program in less than 90 days, you should delete his last separation date and he will continue with the same instructional year schedule. MABLE will not allow you to create a new enrollment record for a student who has been gone from your program for less than 90 days.

To add a separation date, go to the student's current enrollment record and click Edit/Delete.

Enrollment Date	05/21/2007	Site	Anaconda	Instructor	
Separation Date		Separation Reason			
<div>Save Delete Cancel</div>					
Enrollment Date	Site Name	Instructor	Separation Date	Separation Reason	
05/21/2007	Anaconda				Edit/Delete

- The record you are editing will be highlighted in yellow at the bottom of the page.
- In the white fields, choose his separation date and reason for separation if you know it.
- Click Save.
